

# Design Style Guide

Styling plays an important part in acceptance and usage and connecting the users to the software application. Unisys used the guidelines provided by standards.gov.usa to apply create a minimalistic yet distinct styling to the prototype. The important design decisions to take were:

- a. Color palette
- b. Typography
- c. Buttons and interaction elements sizing
- d. Images
- e. Spacing
- f. Alignments

The succeeding paragraphs illustrate the choices made by the design team for styling the Provider search application
